- ❖ Complete Public Speaking Course - Udemy

# JOB MOSES UBEH

## DATA ANALYST

## PERSONAL PROFILE

Creative, industrious, result-oriented, and solution-driven Data Analyst / Machine learning Engineer with excellent skills in Python programming, statistical analysis, machine learning model development, data visualization, and database management. Possessing strong communication and analytical capabilities, I am passionate about crafting data-driven business solutions and seek to broaden my horizons by taking on a data analytics role in a technology-driven organization.

## NOTABLE PROJECTS

### SALES DASHBOARD – VIRTUAL CLIENT'S PROJECT

FEBRUARY 2023

- ❖ Led the design and development of a Tableau-based executive sales dashboard for a virtual client.
- ❖ Transformed raw client data using advanced Tableau functionalities to ensure data completeness, accuracy, and consistency within the dashboard.
- ❖ Collaborated with the client to identify key performance metrics, delivering tailor-made data visualization solutions to address their specific business needs.
- ❖ Provided extensive training and guidance to the client's team, empowering them to independently maintain and update the dashboard.

### CUSTOMER SEGMENTATION – VIRTUAL CLIENT'S PROJECT

DECEMBER 2023

- ❖ Remotely connected to client databases and fetched customer data and sales transactions using advanced SQL queries.
- ❖ Performed data quality checks and data cleaning using Python libraries.
- ❖ Utilized Kmean clustering algorithm in the Python ecosystem to cluster customers and performed cluster analysis, presenting reports to the client team ensuring data privacy and documentation of analysis step.

## WORK EXPERIENCE

### QUALITY ASSURANCE/CONTROL SPECIALIST

DRURY INDUSTRIES LIMITED, AGBARA, OGUN, NG. JANUARY 2023 – PRESENT

- ❖ Analyzed a wide range of materials, in-process materials, and products from Alum plant, Acid plant, and utility plant to ensure quality conformity with standards.
- ❖ Maintained and organized all records, documentation, and other files associated with quality control and inspection tasks.
- ❖ Managed and liaised with both internal and external stakeholders and other production teams to ensure successful product delivery in compliance with both internal and external standards.

### IT SUPPORT

KUIDAWA ICT CENTER, KANO, NG.

JANUARY 2022 - NOVEMBER 2022

- ❖ Evaluated and assessed the effectiveness of technology integration initiatives through surveys, feedback, and data analysis.
  - ❖ Provided technical support and troubleshooting assistance to teachers and staff regarding hardware, software, and network issues.
  - ❖ Oversaw the training of 500 teachers and students in Information and Communication Technology (ICT) skills, equipping them with essential digital competencies.

### DATA ENTRY

AFRICAN FIELD EPIDEMIOLOGY NETWORK

MARCH 2022 – NOVEMBER 2022

- ❖ Collected and entered health data into databases, improving data quality by 25%.
- ❖ Maintained data confidentiality and ensured compliance with regulatory requirements.
